BOPE'S SONG.

I hear it singing, singing sweetly, Softly man under tone. Singing as if God had taught it, "It is better farther on!"

Night and day it sings the song, Sings it while I sit alone. Sings so that the heart may hear it, o'It is better farther on."

Sits upon the grave and sings it, Sings it when the heart would grou-sings it when the shadows darken, "It is better farther on."

Farther on? How much farther? Count the milestones one by one. No! no counting—only trusting. "It is better farther on?"

PETROLEUM NEAR LOS ANGELES.—The Los Angeles Express says: "There can now be no doubt of the success of the now be no doubt of the success of the enterprise; and Dr. Geiche will reap the reward of his energetic and persistent labors. He has just returned from San Fernando, and on yesterday sent out an additional force of six men with two twelve-mule leans leaded with supplies. twelve-mule teams loaded with supplies. Thus far there have been five claims located in the range. There is the Leaning claim, owned by a joint stock company which was incorporated February 10, 1872; they own 160 acres of netroleum deposits, with full title to the land, timber and water rights. Dr. Geleich has recently purchased all interests in the Rice claim, of which he is now entire

Tax Gold Product of Australia.—
The Melbourne Argus states that the product of the Australian gold fields was less during the year 1872 than any previous year since the gold discoveries, because the mines were fewer. Still, the pay per man was better in proportion than it has been in any of the previous years. According to the estimates of that paper, the largest yield of gold in Victoria during the past seven years was in 1866, when the product amounted to 1,536,581 ounces, and the smallest in 1870, amounting to 1,281,841 ounces. Last year the estimated yield was 1,317,102 ounces; but to produce this amount the labor of only 54,651 miners was required, against 73,749 miners, the average number employed in 1866, when the product was 219,479 ounces greater. The Argus estimates the average value of the individual miner's earnings at thirty-one shillings per week in 1866, and at thirty-even shillings per week in 1872. Large investments are now making in prospecting and opening up new leads, and it is expected that the present year prospecting and opening up new leads, and it is expected that the pr-sent year will prove an unusually profitable one for the mining industry of Victoria.

A New Can Skar. - A Toledo man has just received a patent for a new and useful invention recently completed by him, for an impreement consisting of a combined seat and desk for railway cars. The device comprises a stiff spiral spring, situated in the base of an ordinaryshaped stool' in such a manner as to re ceive the full weight of the occupant of the stool without permitting at to touch the floor. The spring serves to break all the jar and jolt caused by the motion of the train, thus affording a perfectly steady position to the small desk attacked to the front of the stool. It is claimed by the inventor that the occupant may write letters or make reckonings my write letters or mass reckonings while traveling at the rate of thirty miles an hour, with all the case and legibility attainable in his own counting room. Should this new device be all that is claimed for it, it will prove a very valuable invention for utalizing time and transacting business while performing a journey.

INCREASE OF IRON WORKS IN 1872. The increase of the iron industry in this country during the past few years has been unprecedentedly large. Reports for 1872 show that 107 new furnaces for 1872 show that 197 new turnaces were built, and 39 projected, and 36 new rolling mills built and 12 projected—making in all an addition of 191 new works. At the date of the above report there were five Bessemer works in operation in the country and four new ones

NASHVILLE's oldest inhabitant is much assisting so offest inhabitant is much interested in Bryant's 'Homer' because, as he says, although he didn't know Ajar personally, he was very well acquainted with A. Jackson and voted for him for Pearldest.

A Canadian editor announced that "he Physician, Surgeon and Accoucheur. A CANADIAN editor abnounced that a helad a keen rapier to prick all fools and knaves." His contemporary over the way said he hoped his friends would take it from him, for he might commit suicide.

A control student being examined in Locke where he speaks of our relation to the Deity, was asked: "What relations do we most neglect?" He answered with the utmost simplicity, "Poor rela-tions, size."

Atas! if the principles of content-ment are not within us, the height of sta-tion and worldly grandeur will as soon add a cubit to a man's stature as to his

ness .- Sterue. ARRANSAS newspaper correspondents in the Legislature make assertions and back, em up by saying:—"I've got six bullets which says it's so."

A NUMBER of human scalps were re-cently discovered in a bale of rags re-ceived from the west by a paper mill in Petersburg, Va.

A roomyoung girl, who earns a living by working on hoop-skirts, in reply to an inquiry, stated that she had spent the summer at the springs.

Tax Danbury News remarks that "the dearest object to a married man should be his wife; but it is not infrequently

DR, GRBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe, and has resumed practice. The Doctor has spared neither time nor money

Seminal Weakness.

Seminal emission is the consequence of selfabuse. This solitary vice, or depraved sexual
indulgence, is practiced by the youth of both
sexes to an almost unlimited extent, producing
with unerring certainty the following train of
morbid symptoms, unless combatted by scientific medical measures, viz: Sellow countenance,
dark spots under the eyes, pain in the head, ringing in the cars, noise like the rustling of leaves
or rattling of charlots, uneasiness about the
loins, weakness of the limbs, confused vision,
blunted intellect, loss of confidence, diffidence
in approaching strangers, a dislike to form new blunied intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, less of memory, pimples and various eruptions about the face, heetic flushes, furred tongue, feetid breath, coupins, consumption, night sweats, monomania and frequently insanity. If relief be not obtained, you should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating disease, which never fails of effecting a quick and radical cure.
